

The diagram illustrates a cross-section of a drainage system. At the top, the title "Grøftepropp" is centered. The main components and labels are as follows:

- Grøftepropp av leire i ledningssonen**: A clay plug in the pipe zone, indicated by an arrow pointing to a shaded area.
- Terreng**: The ground surface, indicated by an arrow pointing to the top line of the ditch.
- Fiberduk klasse 3**: A fiber fabric layer, indicated by an arrow pointing to a dashed line within the ditch.
- 2 m**: A dimension line indicating the length of the fiber fabric layer.
- Tilkobles via grenrør**: Connected via a branch pipe, indicated by an arrow pointing to a T-junction.
- Ø160 PVC SN8**: A 160mm diameter PVC pipe with a stiffness class of SN8, indicated by an arrow pointing to the main pipe.
- Ø160 Drensrør lengde ca 6m**: A 160mm diameter drainage pipe with a length of approximately 6m, indicated by an arrow pointing to the pipe at the bottom right.
