

Appendix I – The Suppliers Warranties

1. Warranty

1.1 Warranty period and warranty obligations

The warranty period is 24 months starting when the Material is put into operation.

1.2 System warranty

The Supplier warrants the correct and appropriate design, engineering, function and first-class workmanship.

If the Material in spite of normal maintenance and assumed use is in need of repair and/or the maintenance cost is increasing considerably as a result of improper construction or choice of materials, the Customer is entitled to claim the Material repaired without cost.

1.3 Availability

If the Material as a result of the Suppliers lack in control of his warranty obligations as described in Contract Conditions clause 2.2, is out of working order for more than two calendar days because of errors or defects, the Customer is entitled to charge the Supplier 1‰ of the total price, cf. Exhibit B1, for each calendar day the Material is not operable.
