

TRANSPORT REQUIREMENTS

VEHICLES

The contractor reserves the right to perform a visual inspection of the vehicle upon arrival. The vehicle shall be in good working condition and free from any damage that may affect safety or environmental compliance.

All vehicles carrying our goods are to be equipped with tires and chains suitable for nordic conditions. All trucks are required to have at least Euro-6 classification.

Minimum requirements for all trucks during winter season:

Requirement
Front and drive tires marked with 3PMSF*
Additional tires marked with M+S
Carry 2 snow chains for front axle
Carry 3 snow chains for drive axle

Additional requirements for semi- and trailer trucks during winter season:

Requirement
Trucks must have 3 or more axles
Drive axle must be second axle or second and third axle in tandem

Additional requirements for trailers during winter season:

Requirement
Anti lock braking system
All tires must be marked 3PMSF*

*=Some tires marked 3PMSF are by the manufacturer not recommended for use in the Nordics. These tires are not to be used.

EMPLOYER/OWNER

The vehicle employer/owner is the person or legal entity (company) that owns the truck, either through direct ownership or lease. Documentation of vehicle ownership shall be present in every vehicle and provided upon request. The documentation shall include the owner's name or company name, address, email address, and phone number.

EMPLOYEES/DRIVERS

The employee or driver is the person driving the truck at the time of inspection.

Documentation of drivers name and employment shall be present in every vehicle and provided upon request.

The driver must be able to communicate in a Nordic language or in English. Exceptions are allowed for drivers with speech disabilities (e.g., muteness), provided the driver can refer to a designated contact person who is immediately available by phone and can communicate on their behalf.

The driver(s) operating the vehicle are required to have safety shoes, a helmet, and a high-visibility vest, jacket, or similar safety gear present in the vehicle. The driver is required to use this safety gear while working outside the vehicle inside the contractor's facilities.

WAGE TERMS

All drivers must comply with Norway's minimum wage tariff and applicable subsistence allowance rates while driving in Norway.

Upon request, the employer shall provide documentation demonstrating compliance with these criteria.

Failure to comply with any of the requirements in this document may result in denial of cargo and/or refusal of receipt.
